**WARNING:**  
**CHOKING HAZARD – Small parts**  
Not for children under 3 yrs.  
Adult supervision required.

## PARTS LIST:

### Bed

Outer Rail (OR) x2  
Lower Rail (LR) x2  
Headboard (HB)  
Footboard (FB)  
Side Panel (SP) x2  
Feet (F) x4  
Mattress

### Nightstand Table

Leg (L) x2  
Middle Brace (MB)  
Top Brace (TB)  
Lower Brace (LB)  
Back (BK)  
Top (TP)

### Bench

Brace (B)  
Side (S) x2  
Top (T)

### Nightstand Drawer

Base (B)  
Short Side (SS) x2  
Long Side (LS) x2  
Front (F)

## SUPPLIES NEEDED:

Masking tape  
Glue (such as #1249 Weldbond)  
Damp clean cloth  
Hardware

## GENERAL INSTRUCTIONS

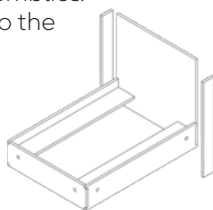

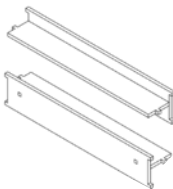

- Identify and inspect all parts using the Parts List and Parts Diagram.
- Read the directions completely before beginning the project.
- If possible, have a dedicated work area so that you are not unpacking, repacking, and moving the project from place to place.
- Choose a work surface that is level, clean, dry, and protected from glue spills.
- Do a dry fit, using masking tape to hold parts in place, to make sure everything fits together correctly before assembling permanently.

## Assembly Instructions

**Tip:** Gently wipe off any residual soot from all cut edges using a little rubbing alcohol on a clean cloth.

### BED

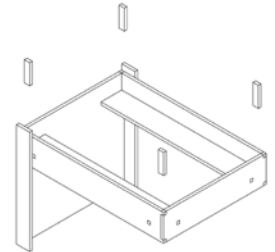

1. Glue a Lower Rail (LR) onto an Outer Rail (OR). The notches on the Lower Rail (LR) fit into the holes in the Outer Rail (OR).
2. Repeat Step 1 with the second set of rails.
3. Glue one rail assembly to the Headboard (HB). The notches on the rail assembly fit into the holes in the Headboard (HB). If they do not line up, then rotate the rail assembly and try again.
4. Repeat Step 3 with the second rail assembly.
5. Glue the Footboard (FB) to the rail assemblies. The notches on the rail assembly fit into the holes in the Footboard (FB).
6. Glue the Side Panels (SP) to the Headboard (HB) and Outer Rails (OR). The Side Panels (SP) are flush with the Headboard (HB) at the back.
7. Let the glue set for a few minutes.
8. Flip the bed over so that the Headboard (HB) is hanging over and off your table and the underside of the bed is accessible.

9. Glue the Feet (F) into the bed corners.
10. Secure the corners of the assembly with tape (or clamps).
11. Use a damp clean cloth to wipe away any excess glue.
12. Let dry.

Assembly of the Bed is now complete.

To finish, add wood filler to any gaps around the notches and sand. Then paint or cover with velvet paper, patterned paper, or thin cotton fabric. Add the mattress and make up the bed with either #91046 Beige Taramore Bedding Set or #91047 Blue Taramore Bedding Set.

### BENCH

1. Glue the Brace (B) into one Side (S). The notch on the Brace (B) fits into the square hole in the Side (S). The Brace (B) can be oriented with the cut edge facing up or out.
2. Repeat Step 1 with the second Side (S).
3. Glue the Top (T) onto the assembly and inside the posts.
4. Secure the corners with tape (or clamps).
5. Use a damp clean cloth to wipe away any excess glue.
6. Let dry.

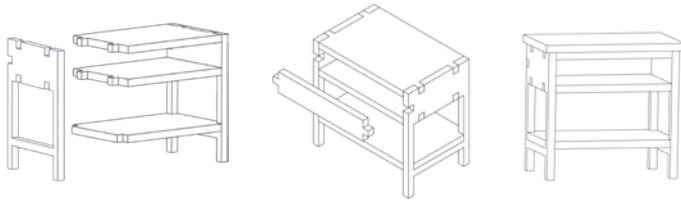

Assembly of the Bench is now complete.

To finish, add wood filler to any gaps around the notches and sand. Then paint. The top can be finished by wrapping twine around the top of the bench to add texture and style.

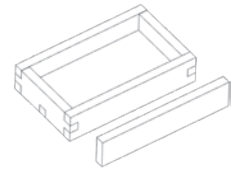

### NIGHTSTAND TABLE

1. Glue the Middle Brace (MB) to a Leg (L).
2. Glue the Top Brace (TB) to the same Leg (L).
3. Glue the Lower Brace (LB) to the same Leg (L). The Lower Brace (LB) rests on top of the Leg (L).
4. Glue the other Leg (L) to all the braces. Assure that both Leg (L) are in the same orientation. Their remaining single notch cut out should be facing the same direction.
5. Glue the Back (BK) into place.
6. Glue the Top (TP) flush at the back and even at the sides.
7. Let dry.

### NIGHTSTAND DRAWER

8. Glue a Short Side (SS) to the Base (B).
9. Repeat for the other Short Side (SS).
10. Glue a Long Side (LS) to the Base (B).
11. Repeat for the other Long Side (LS).
12. Glue the Front (F) in place.
13. Let dry.
14. Place the drawer inside the table.

Assembly of the Nightstand is now complete. To finish, add wood filler to any gaps around the notches and sand. Paint and add hardware.

## Parts Layout
